ABOUT ME

Through my background in retail and social services, I learned how to analyze the situations around me in order to figure out the best outcomes for either my customers or for the people I served. I took the next step and had NSS help me hone my talent into a more refined skill set that can be used to find valuable insights to help drive business forward.

SKILLS

SQL (PostgreSQL) | Excel | Git/GitHub | Leadership and Management | Speech and presentation | Power BI

DATA ANALYTICS EXPERIENCE

DATA ANALYTICS APPRENTICE | NASHVILLE SOFTWARE SCHOOL | SEPT 2021 - PRESENT

Four-month intensive program in data analytics and business intelligence. Emphasis on analytical reasoning through hands-on training in every stage of the analytics workflow. Projects used real data presented by Nashville employers.

- Experience with SQL, Excel, Python, Tableau, & Power BI
- Experience in remote collaboration
- Git and GitHub for version control
- Learning included communicating findings through presentations, storytelling, reports, and dashboards
- Focus on teamwork, teambuilding, and leadership allows students to integrate with analytical teams in the future

PROJECTS

- **Lahman Baseball (SQL)** - Using a massive baseball statistics database, my role was to figure out SQL queries that helped the team find and investigate interesting topics using PostgreSQL. - https://github.com/DakotaWeedon/lahman_baseball-cheeseday
- **App Trader (SQL, Excel)** - As team lead, my group took data from the App Store and Play Store to help find the most profitable apps in both stores. - https://github.com/DakotaWeedon/app_trader-ddas_awesome

PROFESSIONAL EXPERIENCE
